

January Coalition Meeting

Thursday, February 9th, 2023

9:30-10:30 AM

----Agenda----

- **Introductions**
- **Needs Assessment Introduction**
- **WISH Data Review**
- **Injury Prevention Survey Completion/Review**
 - <https://www.surveymonkey.com/r/H76297J>
 - If most people complete the survey prior to the meeting we will start to discuss the results. If you are unable to complete the survey prior to the meeting you can take time during the meeting to fill it out.
- **Jamboard Overview**

Next Meeting: March 16th 9:30 am hybrid

- Programs related to overarching injury prevention topics, resources, and partnerships.

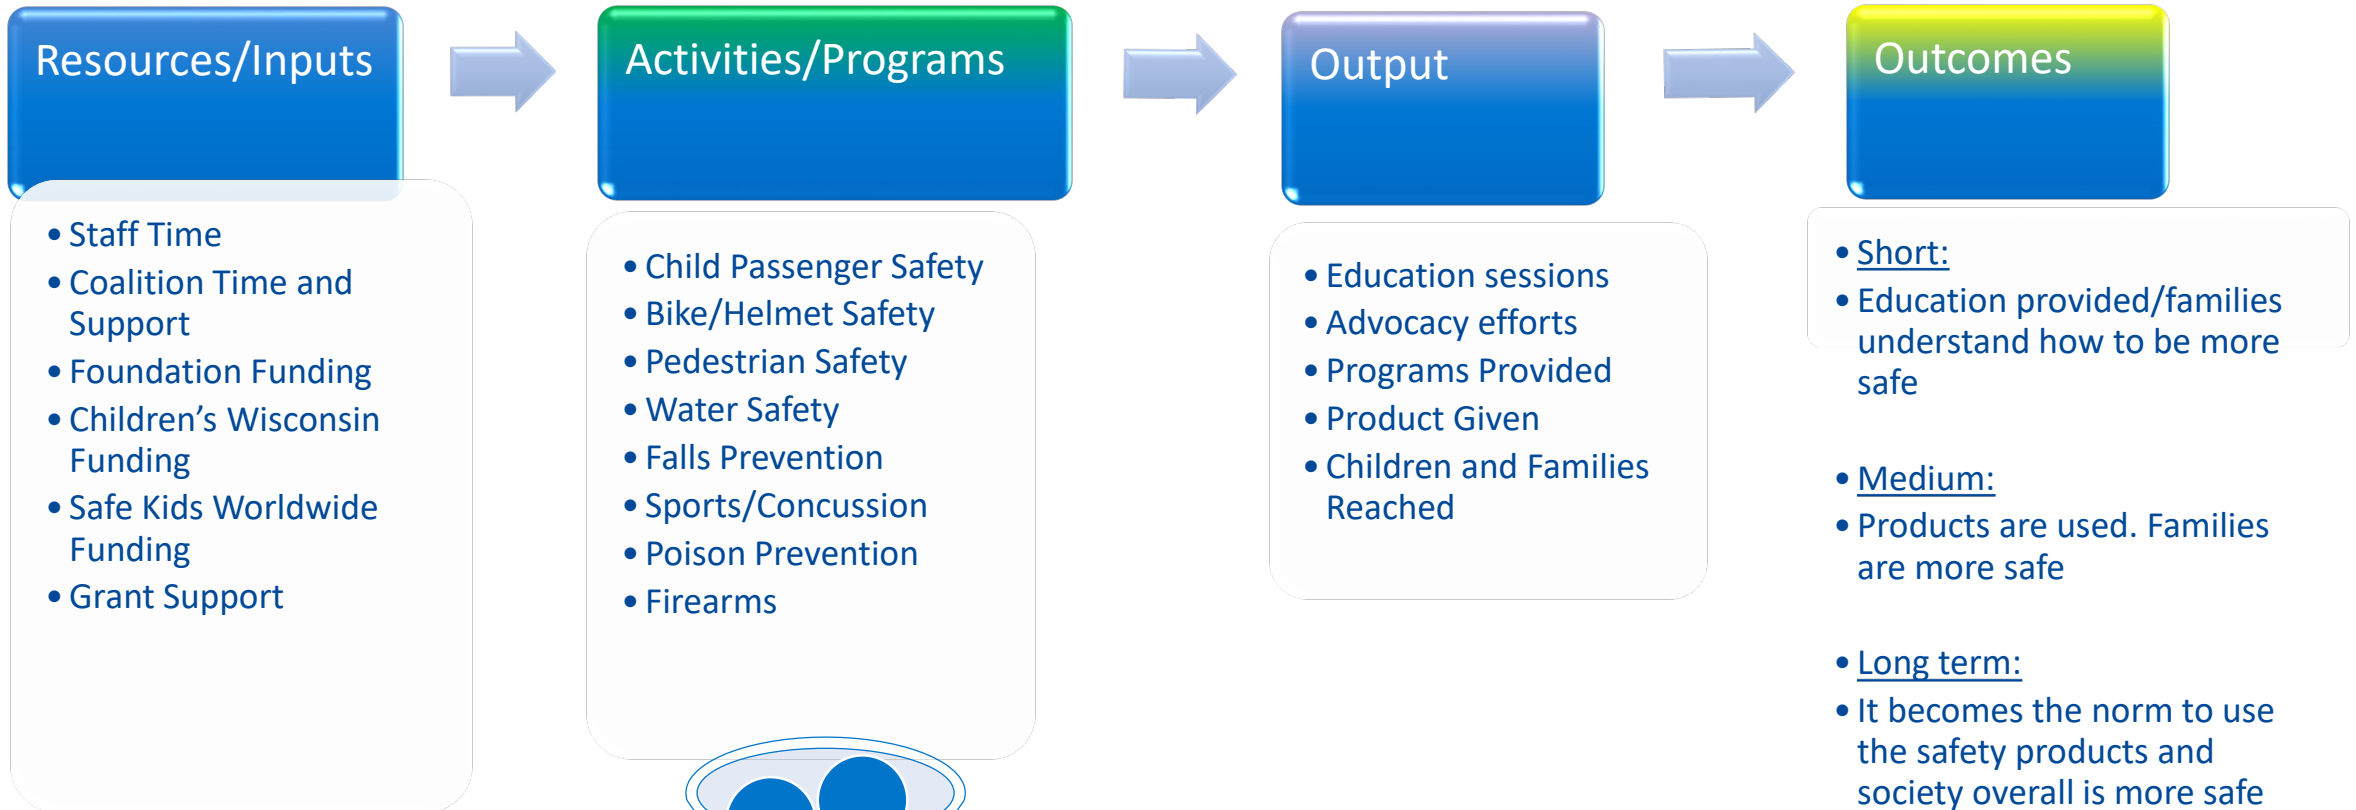

Safe Kids Southeast Wisconsin Coalition

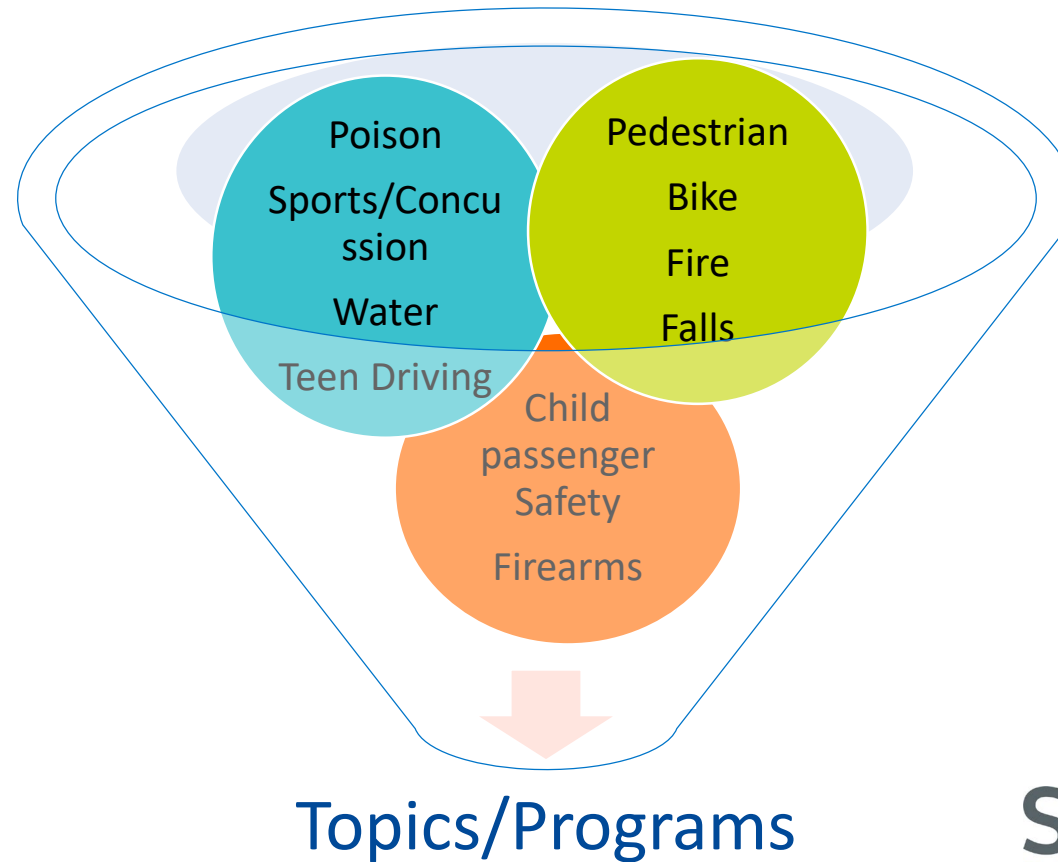

Safe Kids Southeast Wisconsin Injury Prevention

Safe Kids SEWI AIM/Goals

Priority Setting

WISH DATA

SOUTHEAST WI

Milwaukee, Ozaukee, Washington, Waukesha

Deaths

Deaths, ages 0-19, 2018-2020	No. of Deaths
Firearm	80
Motor Vehicle	38
Suffocation	31
Poisoning	17
Fire, heat, chemical burns, hot object, scalding	7
Drowning	6

Hospitalizations

Hospitalizations, ages 0-19, 2018-2020	No. of Hospitalizations
Poisoning	411
Motor Vehicle	307
Fall	125
Firearm	102
Nontraffic transportation	53
Fire, heat, chemical burns, hot object, scalding	50
Struck by or against object or person	41
Cutting or piercing objects	29
Natural or environmental factors	13

Emergency Department Visits

Emergency Department Visits, ages 0-19, 2018-2020	No. of Visits
Falls	25,150
Struck by or against object or person	18,115
Motor vehicle	8,935
Cutting or piercing objects	9,151
Overexertion	5,319
Natural or environmental Factors	4,393
Poisoning	2,875
Nontraffic transportation	1,947
Fire, heat, chemical burns, hot object, scalding	1,553

Cut, pierce

This category includes deaths caused by cutting and piercing instruments. E codes for unintentional deaths caused by cutting and piercing allow for some specification of the type of instruments or objects involved in the injury incident, including knives, swords, and daggers; power lawn mowers, power hand tools, and household appliances; and other specified and unspecified sharp objects. Injury resulting from an incision, slash, perforation, or puncture by a pointed or sharp instrument, weapon, or object.

Drowning

This category includes deaths from drowning and submersion with and without involvement of watercraft seas, rivers, pools, bathtubs, and other bodies. Suffocation (asphyxia) resulting from submersion in water or another liquid.

Falls

This category includes deaths from falls associated with various mechanisms. Injury received when a person descends abruptly due to the force of gravity and strikes a surface at the same or lower level.

Fire burn

Severe exposure to flames, heat, or chemicals that leads to tissue damage in the skin or places deeper in the body; injury from smoke inhalation to the upper airway, lower airway, or lungs.

Firearm

This category includes all codes related to deaths from firearms, including unintentional, suicide, homicide, legal intervention, and undetermined intent.

Machinery

This category includes injuries associated with machinery used in various industrial and occupational activities. Injury that involves operating machinery, such as drill presses, fork lifts, large power-saws, jack hammers, and commercial meat slicers. This category does not include injury involving machines not in operation, falls from escalators or moving sidewalks, or injuries from powered lawn mowers or other powered hand tools or home appliances.

Motor Vehicle

Motor-vehicle–traffic injuries involving automobiles, vans, trucks, motorcycles, and other motorized cycles known or assumed to be traveling on public roads or highways. Injury involving modes of transportation, such as cars, motorcycles, bicycles, and trains. This category is divided into four subcategories according to the person injured: motor vehicle occupant, motorcyclist, pedal cyclist, pedestrian, and other transport. This category also involves another factor—whether the injury occurred in traffic (on a public road or highway).

Natural/Environmental

Excessive heat, cold, hunger, storms, earthquakes, avalanche, floods, tidal waves, bites, stings. Injury resulting from exposure to adverse natural and environmental conditions (such as severe heat, severe cold, lightning, sunstroke, large storms, and natural disasters) as well as lack of food or water.

Overexertion

Exhaustion Working the body or a body part too hard, causing damage to muscle, tendon, ligament, cartilage, joint, or peripheral nerve (e.g., common cause of strains, sprains, and twisted ankles). This category includes overexertion from lifting, pushing, or pulling or from excessive force.

Poisoning

Ingestion, inhalation, absorption through the skin, or injection of so much of a drug, toxin (biologic or non-biologic), or other chemical that a harmful effect results, such as drug overdoses. This category does not include harmful effects from normal therapeutic drugs (i.e., unexpected adverse effects to a drug administered correctly to treat a condition) or bacterial illnesses.

Struck By/Against

Injury resulting from being struck by (hit) or crushed by a human, animal, or inanimate object or force other than a vehicle or machinery; injury caused by striking (hitting) against a human, animal, or inanimate object or force other than a vehicle or machinery. Sports, thrown, fight, struck by a falling object

Suffocation

Inhale or ingest food or reperate object or hinder breathing-bedding, plastic bag, hanging, and strangulation. Inhalation, aspiration, or ingestion of food or other object that blocks the airway or causes suffocation; intentional or accidental mechanical suffocation due to hanging, strangulation, lack of air in a closed place, plastic bag or falling earth. This category does not include injury resulting from a foreign body that does not block the airway

Non Traffic

Any vehicle incident that occurs entirely in any place other than a public highway, street, or road. Motorcycles, ATVs, go-carts, and other off-road vehicles,
